

ILM

Wilmington International Airport

14 CFR Part 150
Noise Compatibility Study

Agenda

1. Welcome and Introductions
 - Jeff Bourk, Wilmington International Airport
2. Study Process
 - Kory Lewis, Coffman Associates
3. Role of the PAC
 - Kory Lewis, Coffman Associates
4. Noise Exposure Maps Overview
 - Kory Lewis, Coffman Associates
5. Chapter 1: Inventory
 - Madeline Holliman, Coffman Associates
6. Chapter 2: Forecasts
 - Mike Dmyterko, Coffman Associates
7. Next Steps
 - Kory Lewis, Coffman Associates
8. PAC Members Discussion
 - Sarah Ferrara, Compass Rose Communications

Welcome and Introductions

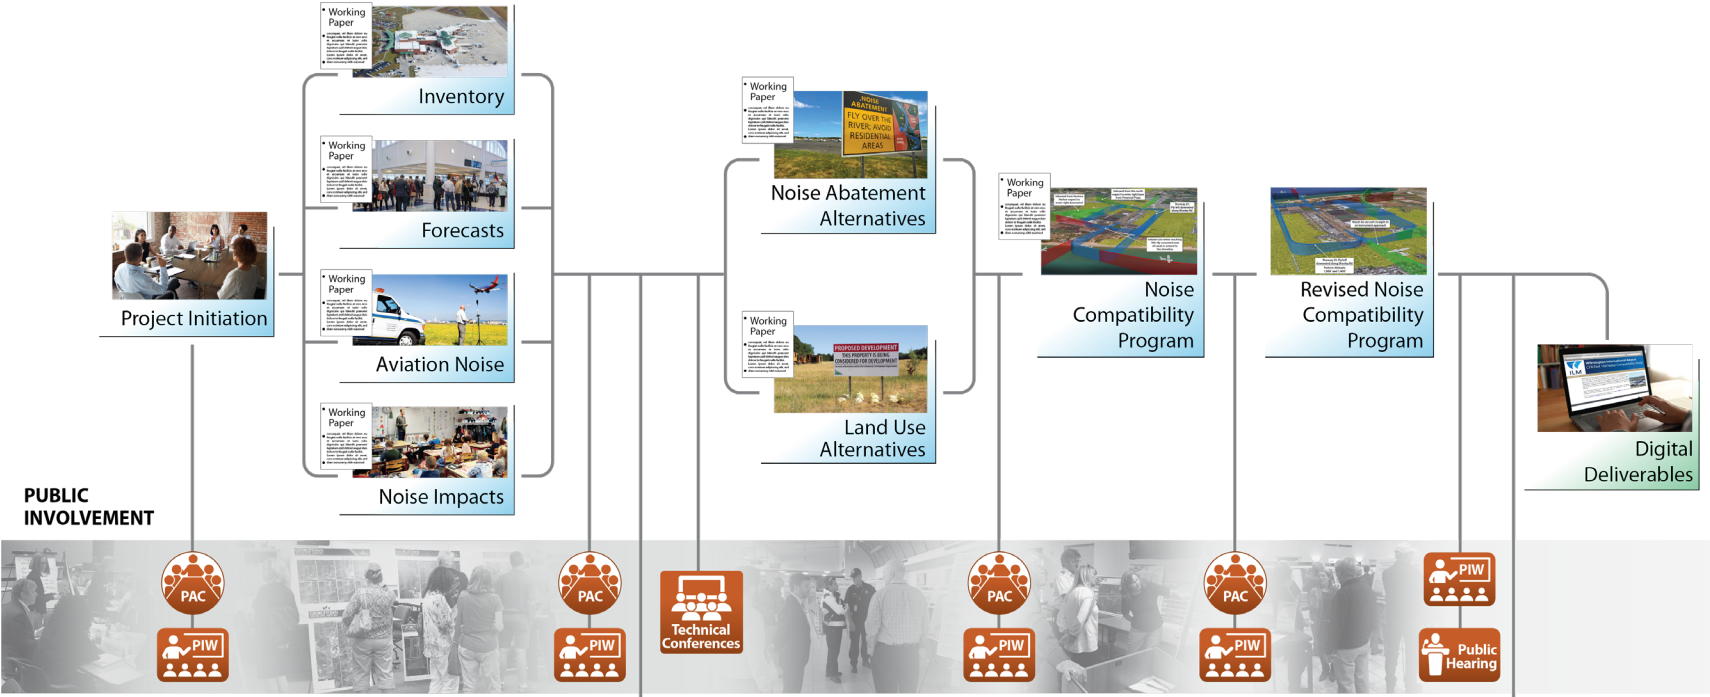

**What information can you
provide to support the study?**

**What are your expectations
for the Part 150 Study?**

Agenda

1. Welcome and Introductions
 - Jeff Bourk, Wilmington International Airport
2. **Study Process**
 - **Kory Lewis, Coffman Associates**
3. **Role of the PAC**
 - **Kory Lewis, Coffman Associates**
4. **Noise Exposure Maps Overview**
 - **Kory Lewis, Coffman Associates**
5. Chapter 1: Inventory
 - Madeline Holliman, Coffman Associates
6. Chapter 2: Forecasts
 - Mike Dmyterko, Coffman Associates
7. Next Steps
 - Kory Lewis, Coffman Associates
8. PAC Members Discussion
 - Sarah Ferrara, Compass Rose Communications

Study Process

KEY:
 PAC - Planning Advisory Committee
 PIW - Public Information Workshop
 NEM - Noise Exposure Maps
 NCP - Noise Compatibility Plan

PAC Roles and Responsibilities

- ▶ Sounding Board
- ▶ Linkage to the Community
- ▶ Resource
- ▶ Critical Review

- ▶ Neighborhood groups
- ▶ Airport users
- ▶ FAA
- ▶ Aviation industry

What is a Part 150 Study?

A Part 150 Study:

- Identifies the current and projected annualized aircraft noise levels at ILM using the Day Night Average Sound Level (DNL) noise metric.
- Identifies measures to reduce the noise impacts within the noise exposure contours from aircraft operating to and from Airport through changes in aircraft operations or airport facilities.
- Encourages future land uses which are compatible with aircraft noise, such as commercial or industrial in undeveloped areas.
- Determines methods to reduce the adverse impacts of noise above FAA thresholds in existing residential areas.
- Establishes a procedure to implement, review, and update the program.

A Part 150 Study does not:

- Evaluate aircraft operations from other area airports.
- Consider other types of impacts (air quality, accidents, etc.).
- Use noise metrics other than DNL to determine noise impacts.
- Provide justification for airport expansion.

Agenda

1. Welcome and Introductions
 - Jeff Bourk, Wilmington International Airport
2. Study Process
 - Kory Lewis, Coffman Associates
3. Role of the PAC
 - Kory Lewis, Coffman Associates
4. Noise Exposure Maps Overview
 - Kory Lewis, Coffman Associates
- 5. Chapter 1: Inventory**
 - **Madeline Holliman, Coffman Associates**
6. Chapter 2: Forecasts
 - Mike Dmyterko, Coffman Associates
7. Next Steps
 - Kory Lewis, Coffman Associates
8. PAC Members Discussion
 - Sarah Ferrara, Compass Rose Communications

Chapter 1 — Inventory

- ▶ Federal Government
- ▶ State and Local
- ▶ Local Land Use Policies and Regulations
- ▶ Airport Facility Inventory

Roles and Responsibilities

- Pilots
 - Responsible for safe operation of aircraft in the air and on the ground
- FAA
 - Establishes airspace – where aircraft may be flown
 - Sets aircraft noise standards
 - Certifies aircraft and pilots
 - No off-airport land use authority
 - Establishes the Part 150 land use compatibility planning process
- Wilmington International Airport
 - No control over aircraft in flight
 - May establish run-up times, voluntary noise abatement procedures
 - Responsible for maintaining a safe airport
 - Must comply with FAA Grant Assurances
- New Hanover County and City of Wilmington
 - Promote compatible land use through zoning
 - Set noise ordinances, but aircraft are exempt per City of Burbank v. Lockheed Air Terminal (411 U.S. 624 (1973))

Inventory Mapping

Exhibit 1C: Existing Land Use

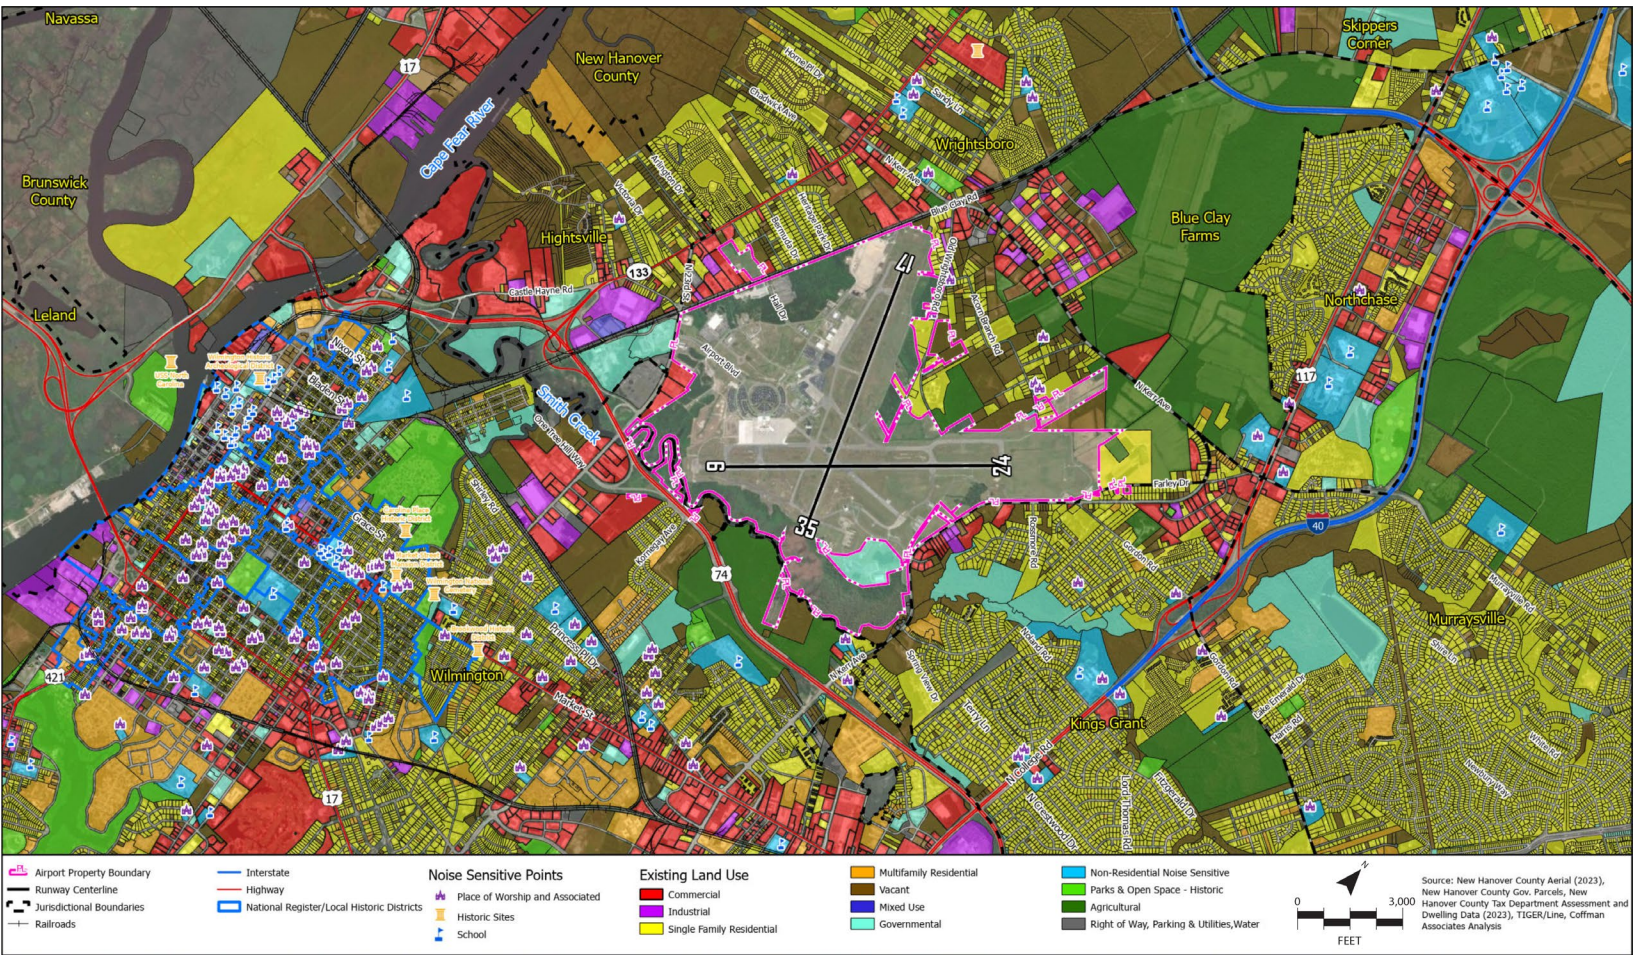

Exhibit 1D: Zoning

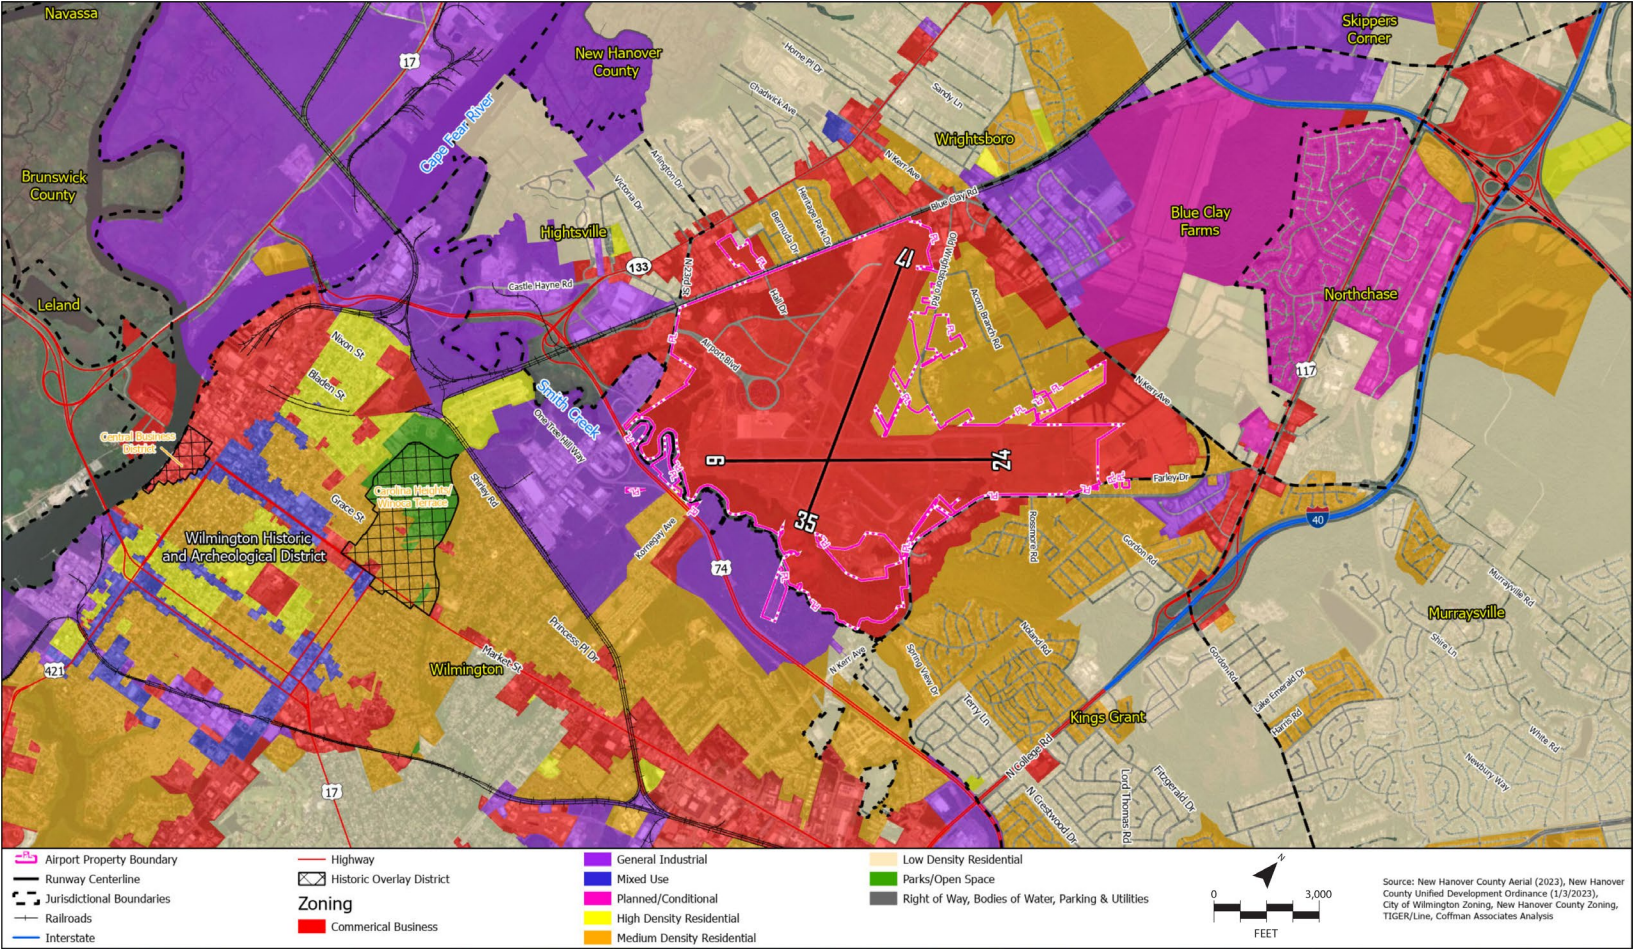

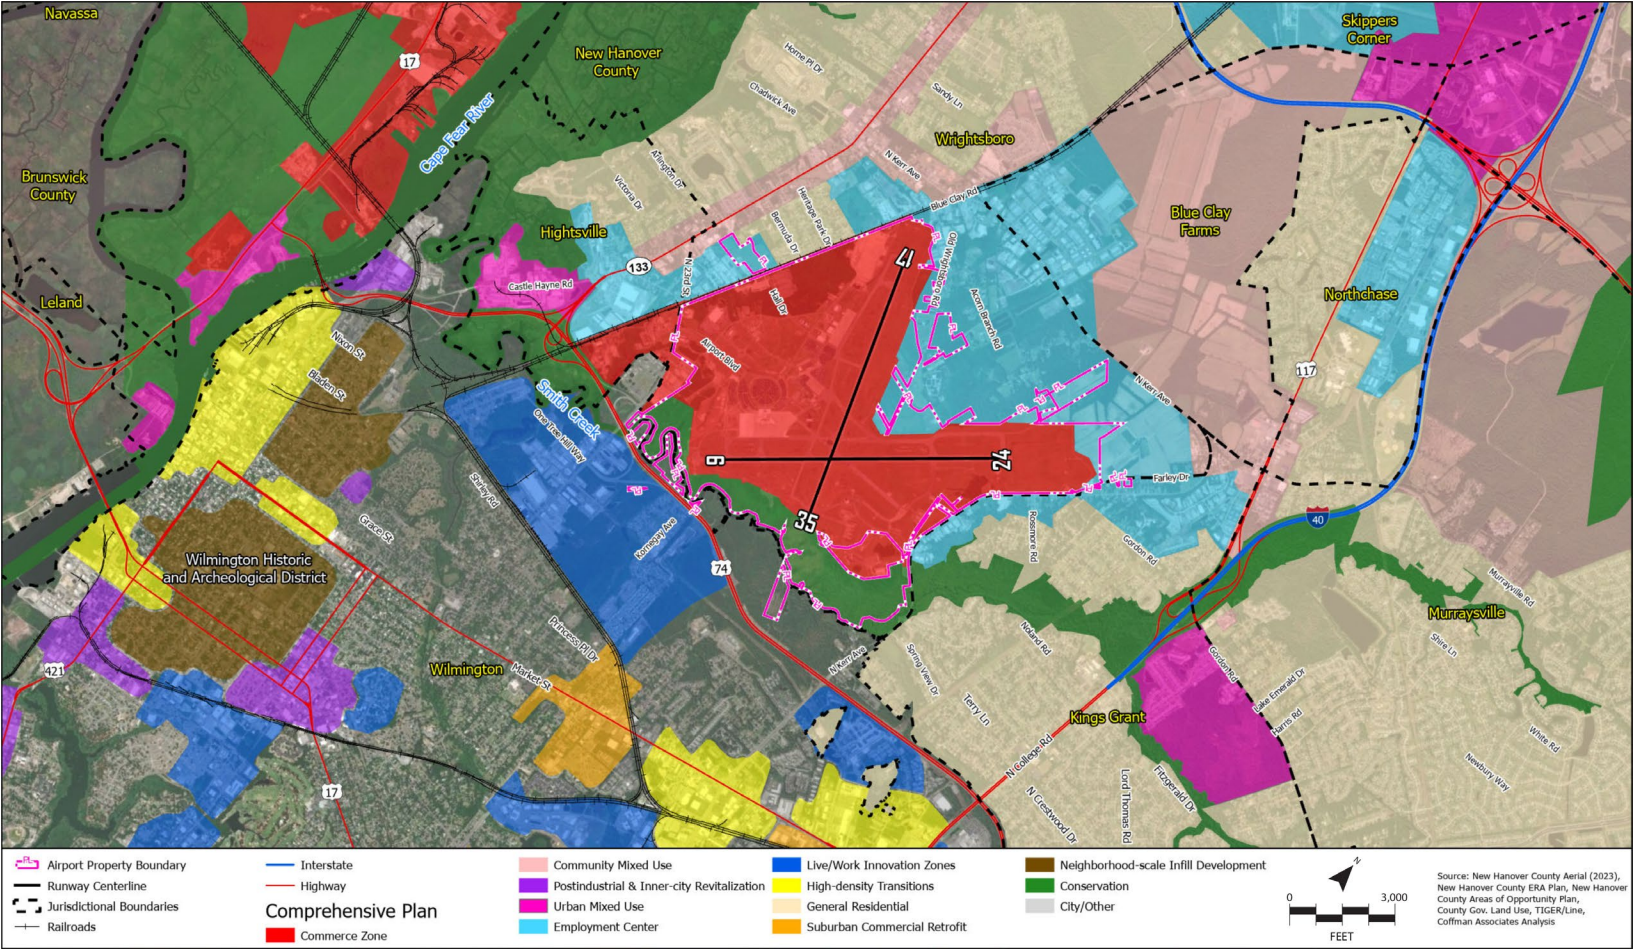

Exhibit 1E: Comprehensive Plan

Agenda

1. Welcome and Introductions
 - Jeff Bourk, Wilmington International Airport
2. Study Process
 - Kory Lewis, Coffman Associates
3. Role of the PAC
 - Kory Lewis, Coffman Associates
4. Noise Exposure Maps Overview
 - Kory Lewis, Coffman Associates
5. Chapter 1: Inventory
 - Madeline Holliman, Coffman Associates
- 6. Chapter 2: Forecasts**
 - **Mike Dmyterko, Coffman Associates**
7. Next Steps
 - Kory Lewis, Coffman Associates
8. PAC Members Discussion
 - Sarah Ferrara, Compass Rose Communications

Chapter 2 — Forecasts

- ▶ National Aviation Trends
- ▶ Core Socioeconomic Forecast
- ▶ Commercial Service Forecast
- ▶ Enplanement Forecast
- ▶ Airline Operations Forecast
- ▶ Air Cargo Forecast
- ▶ Other Commercial Operations Forecast

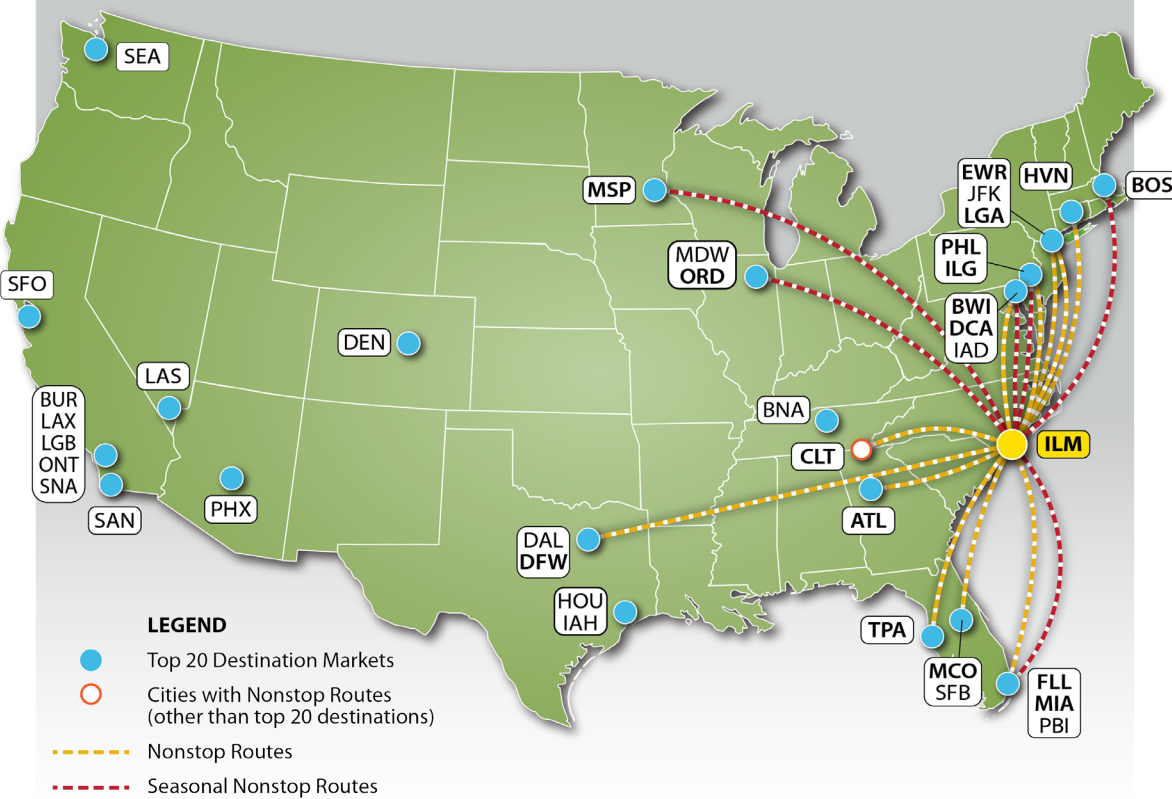

Exhibit 2A: Enplaned Passenger History

Exhibit 2B: Top 20 Markets and Nonstop Destinations

TOP 20 DESTINATIONS/NONSTOP ROUTES - 2023

TOP 20 DESTINATIONS - 2023

Rank	Market	Enplaned
1	New York-Newark (EWR,JFK,LGA)	91,996
2	Miami-South Florida (FLL,MIA,PBI)	28,472
3	D.C.-Baltimore (BWI,DCA,IAD)	25,801
4	Orlando (MCO,SFB)	25,365
5	Philadelphia (ILG,PHL)	21,393
6	Boston (BOS)	20,315
7	Atlanta (ATL)	18,269
8	Dallas-Ft. Worth (DAL,DFW)	17,381
9	New Haven (HVN)	17,262
10	Los Angeles (BUR,LAX,LGB,ONT,SNA)	15,705
11	Chicago (MDW,ORD)	14,681
12	Denver (DEN)	11,669
13	Tampa-St. Petersburg (TPA)	10,258
14	Minneapolis-St. Paul (MSP)	9,841
15	Las Vegas (LAS)	9,637
16	Phoenix (IWA,PHX)	9,032
17	San Francisco (OAK,SFO,SJC)	8,623
18	Nashville (BNA)	7,660
19	Houston (HOU,IAH)	6,227
20	Seattle (SEA)	6,059

Exhibit 2D: Enplanement Forecasts

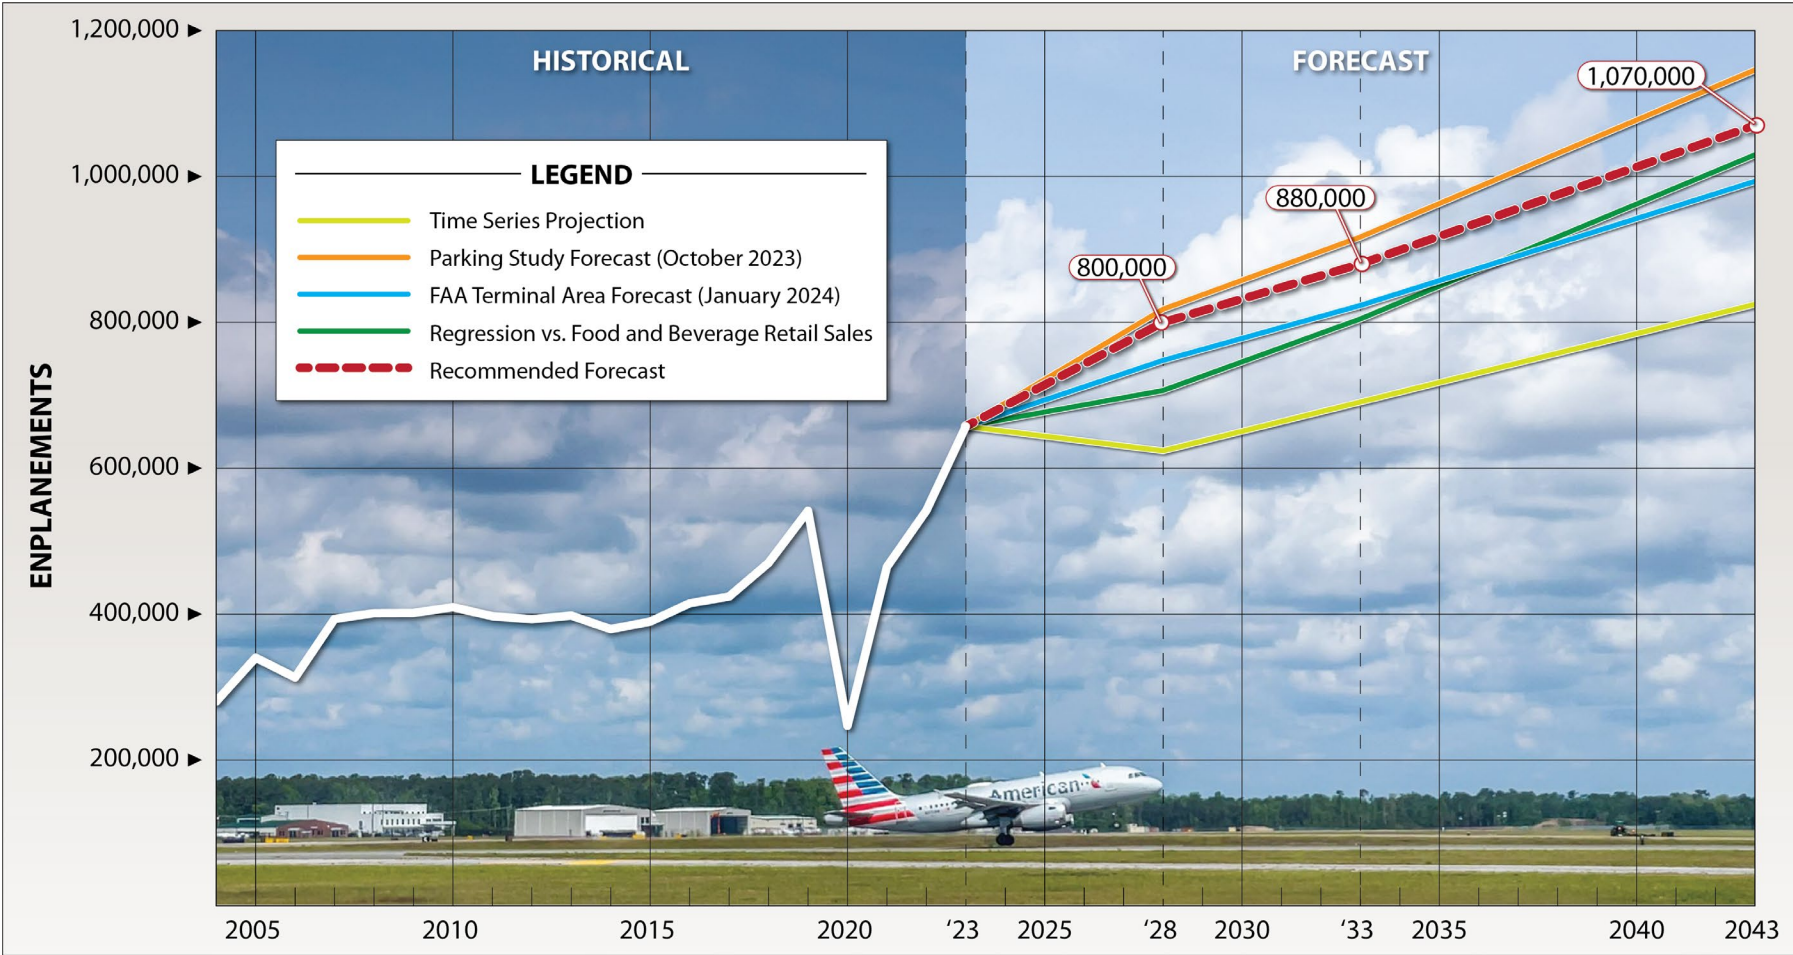

Exhibit 2J: Forecast Summary

Agenda

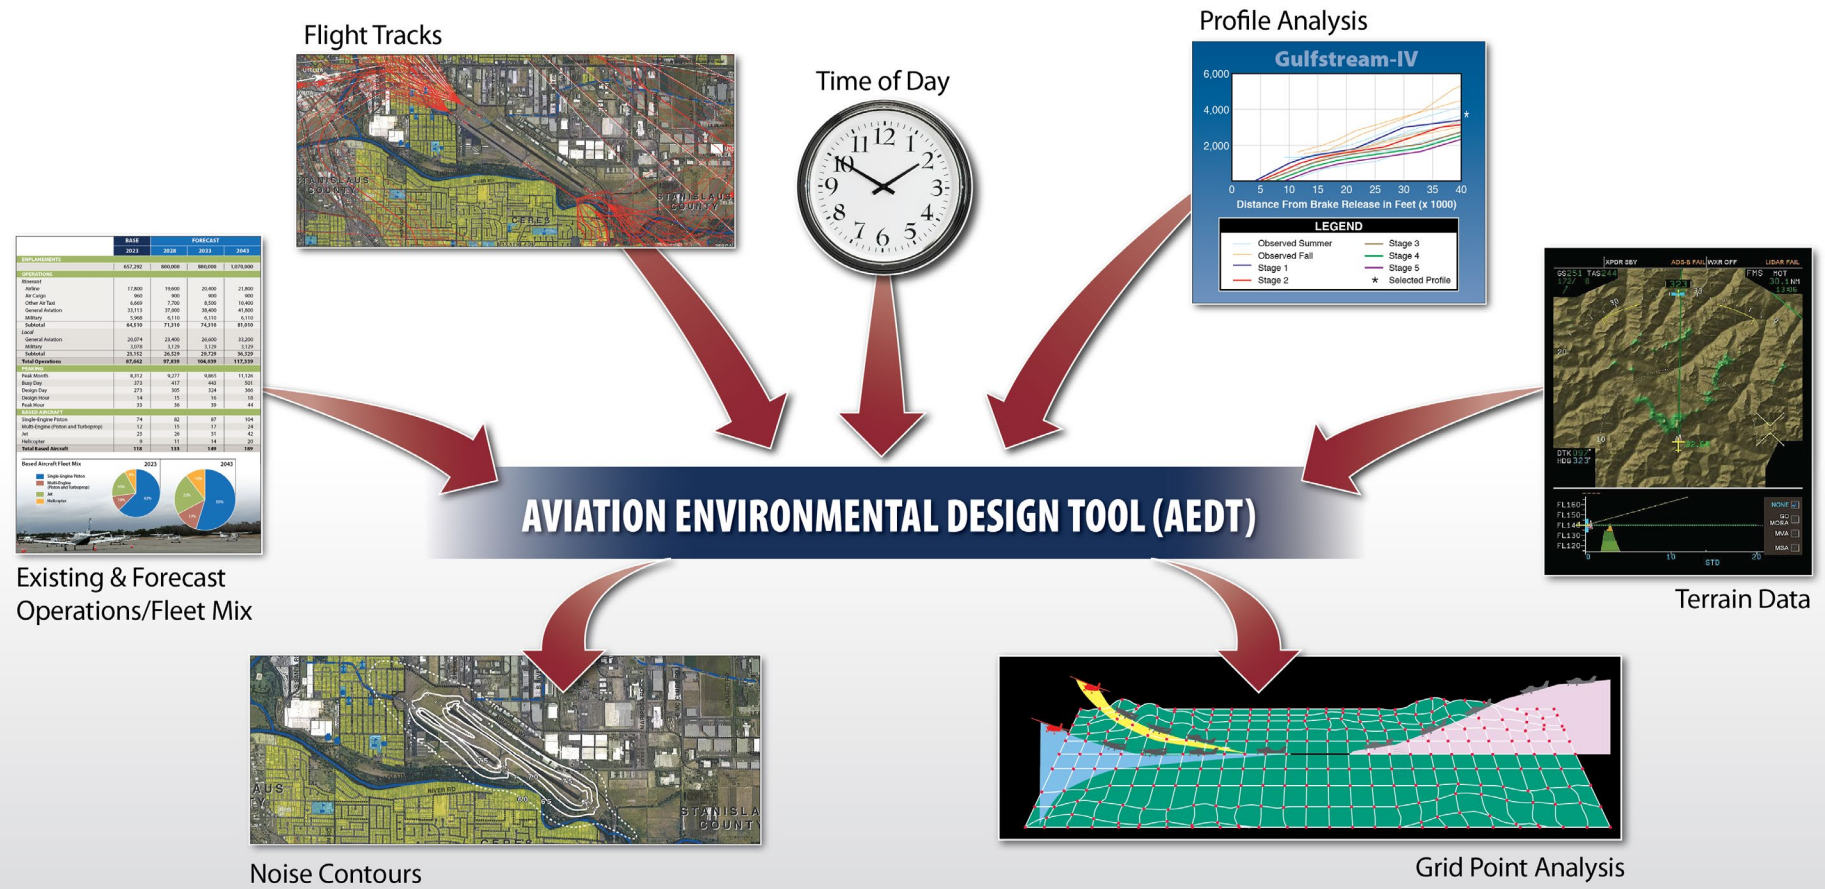

1. Welcome and Introductions
 - Jeff Bourk, Wilmington International Airport
2. Study Process
 - Kory Lewis, Coffman Associates
3. Role of the PAC
 - Kory Lewis, Coffman Associates
4. Noise Exposure Maps Overview
 - Kory Lewis, Coffman Associates
5. Chapter 1: Inventory
 - Madeline Holliman, Coffman Associates
6. Chapter 2: Forecasts
 - Mike Dmyterko, Coffman Associates
7. **Next Steps**
 - **Kory Lewis, Coffman Associates**
8. PAC Members Discussion
 - Sarah Ferrara, Compass Rose Communications

Next Steps

- ▶ Develop Noise Exposure Contours
- ▶ Analyze Noise Measurement Data
- ▶ Process radar flight track data
- ▶ Chapter 3 – Aviation Noise and Chapter 4 – Noise Impacts
- ▶ Next PAC Meeting in September 2024

AEDT Process

Based Aircraft Fleet Mix

2023: High Engine Aircraft (45%), Single Engine Aircraft (35%), Helicopter (10%), Jet (10%)

2043: High Engine Aircraft (55%), Single Engine Aircraft (25%), Helicopter (10%), Jet (10%)

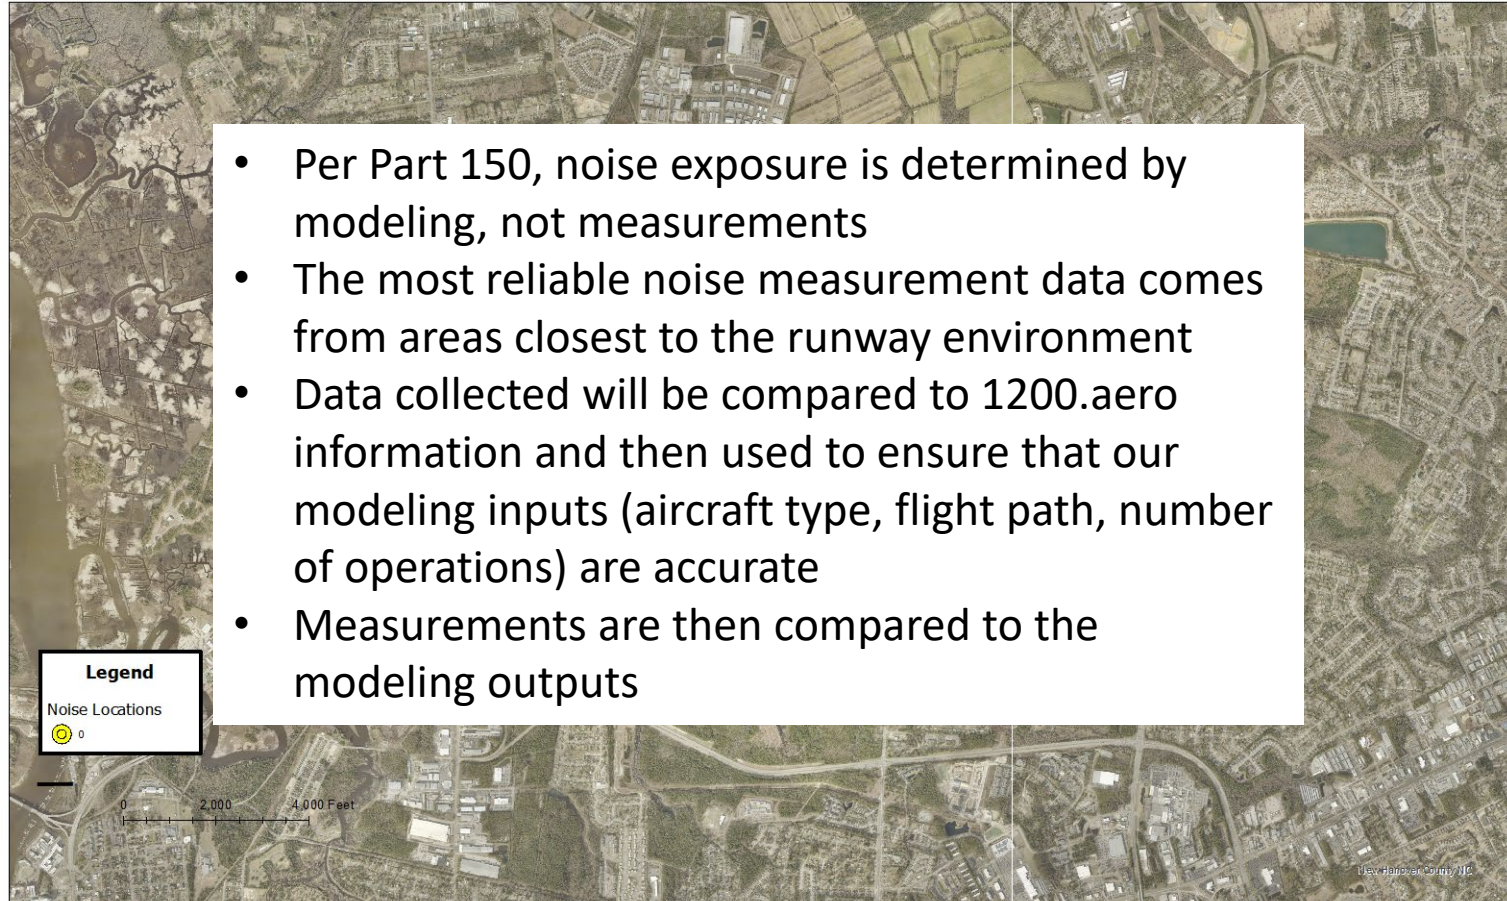

GENERAL AVIATION AIRCRAFT

The contours represent sound exposure levels (SEL) of 85, 90 and 95 dB for one arrival and one departure of each aircraft type. The outer contour represents 85 dB SEL. The inner contour represents 95 dB SEL.

Noise Measurement Locations

Agenda

1. Welcome and Introductions
 - Jeff Bourk, Wilmington International Airport
2. Study Process
 - Kory Lewis, Coffman Associates
3. Role of the PAC
 - Kory Lewis, Coffman Associates
4. Noise Exposure Maps Overview
 - Kory Lewis, Coffman Associates
5. Chapter 1: Inventory
 - Madeline Holliman, Coffman Associates
6. Chapter 2: Forecasts
 - Mike Dmyterko, Coffman Associates
7. Next Steps
 - Kory Lewis, Coffman Associates
8. **PAC Members Discussion**
 - **Sarah Ferrara, Compass Rose Communications**

**What information can you
provide to support the study?**

**What are your expectations
for the Part 150 Study?**

Public Involvement

ilmpart150.airportstudy.net

Community members are invited to attend a Public Information Workshop regarding the ongoing Part 150 Noise Study:

Wednesday, May 15, 2024
5:00-6:30 PM

Snipes Academy Gymnasium
2150 Chestnut Street
Wilmington, NC 28405

The public workshop is an open house format, so attendees can drop in at their convenience. Your input and participation matter!

Why attend?

- Learn more about the noise study and the process
- View information boards on display in the meeting room
- Ask questions, participate, and provide feedback

For more information, please contact:
Kory Lewis - Project Manager
Coffman Associates, Inc.
klewis@coffmanassociates.com
800-892-7772
